A Parent Information Leaflet is available from every early childcare service. It will include details on the qualifications and experience of the staff working in the centre, the fees, opening hours and the type of care and programme provided. Each early childcare service receives an annual inspection from the HSE and parents are advised to request a copy of their most recent Inspection Outcome Report. These reports will shortly be available on the HSE website.

Contact Early Childcare Service 094 903 4776 for further information.
